## Maybank Indonesia's Sustainability Strategy

Sebagai salah satu perusahaan penyedia jasa keuangan terkemuka di Indonesia, Maybank Indonesia memainkan peranan penting dalam pelaksanaan pembangunan nasional serta turut berkontribusi pada Tujuan Pembangunan Berkelanjutan, baik secara langsung maupun tidak langsung. Dalam menjalankan perannya, Bank menghimpun dana publik kemudian disalurkan kepada pelaku usaha dan masyarakat untuk melakukan kegiatan ekonomi dan sosial, termasuk kegiatan-kegiatan usaha yang berwawasan sosial dan kegiatan yang bertujuan untuk meningkatkan kualitas hidup masyarakat.

Maybank Indonesia merupakan salah satu bank terbesar di Indonesia dengan total aset senilai Rp169,1 triliun pada tahun 2019. Bank telah menyalurkan kredit mencapai Rp122,6 triliun dan menghimpun Dana Pihak Ketiga sebesar Rp110,6 triliun. Namun, pemanfaatannya harus selaras dengan kepentingan lingkungan, sosial, dan tata kelola agar tidak menimbulkan dampak negatif bagi pembangunan. Di sisi lain, masih banyak kegiatan usaha yang berwawasan lingkungan di berbagai sektor ekonomi yang juga memerlukan dukungan finansial termasuk kegiatan ekonomi inklusif yang dilakukan oleh pelaku Usaha Kecil dan Menengah. [102-15]

### KOMITMEN BANK TERHADAP LINGKUNGAN, SOSIAL DAN TATA KELOLA

Strategi keberlanjutan Maybank Indonesia dituangkan dalam Rencana Aksi Keuangan Berkelanjutan (RAKB) 2019-2023 yang berisi rencana aksi jangka pendek (satu tahun) dan jangka panjang (lima tahun). Penyusunan RAKB ini sejalan dengan amanah

As one of the leading financial service providers in Indonesia, Maybank Indonesia plays a key role in the country's nation building and makes meaningful contribution to the Sustainable Development Goals, both directly and indirectly. In carrying out its role, the Bank raises public fund and manages it by selectively distributing the fund to qualified businesses and creditworthy members of the community for economic and social activities, including business activities with social objectives aimed at improving the quality of people's lives.

Maybank Indonesia is one of the largest banks in Indonesia with total assets of Rp169.1 trillion in 2019. Through its 374 branch offices and electronic channels, Maybank Indonesia serves more than 1.2 million debtor customers and 1.8 million customers throughout Indonesia.

The Banks distributes loan with a noble aim to encourage economic activities and improve the welfare of Indonesian community. However, fund utilization must always be aligned with environmental, social and governance interests to prevent any negative impact that each of the financed projects may have on the national development. On the other hand, the abundant green projects such as economic inclusion run by small and medium business in various economic sectors do need financial support. [102-15]

### RAKB dan Corporate Responsibility

Implementasi RAKB juga disertai dengan sejumlah inisiatif agar pelaksanaannya dapat diintegrasikan antara praktik bisnis yang mempertimbangkan faktor Lingkungan, Sosial dan Tata Kelola (LST) dengan kegiatan Corporate Responsibility (CR) melalui program pemberdayaan terutama untuk komunitas perempuan dan penyandang disabilitas prasejahtera. Misalnya melalui kegiatan Maybank Women Eco-Weavers (MWEW) di Tanah Datar, Sawahlunto, Lombok Tengah dan Lombok Timur; program Reach Independence & Sustainable Entrepreneurship (RISE) untuk penyandang disabilitas; dan program pembiayaan mikro melalui KOMIDA.

### RAKB and Corporate Responsibility

The implementation of the RAKB goes hand in hand with several other initiatives to help integrate business practices that are considerate to Environmental, Social and Governance (ESG) factors with Corporate Responsibility (CR) activities through empowerment programs, especially for underprivileged women and people with disabilities. An example of these initiatives is Maybank Women Eco-Weavers (MWEW) program in Tanah Datar, Sawahlunto, Central Lombok and East Lombok; the Reach Independence & Sustainable Entrepreneurship (R.I.S.E) program for disabled people; and microfinance programs through KOMIDA.

## MAYBANK INDONESIA DAN TUJUAN PEMBANGUNAN BERKELANJUTAN

Bank secara tidak langsung berkontribusi pada pencapaian Tujuan Pembangunan Berkelanjutan melalui kredit untuk kegiatan usaha yang dapat memberikan dampak pada pembangunan berkelanjutan nasional. Kontribusi secara langsung dilakukan melalui kegiatan tanggung jawab korporasi kepada masyarakat dan lingkungan yang manfaatnya selaras dengan *Sustainable Development Goals* (SDGs).

Maybank Indonesia mendukung sepenuhnya komitmen Pemerintah untuk melaksanakan pembangunan berkelanjutan melalui Maybank 20/20 *Sustainability Plan* yang mencakup program-program CR Maybank Indonesia.

### Rencana Keberlanjutan Usaha

Sebagai bagian dari Maybank Group, Maybank Indonesia telah memiliki panduan-panduan dan arahan strategis termasuk dalam kerangka kerja Lingkungan, Sosial dan Tata Kelola (LST) dan rencana Keberlanjutan usaha yang dikenal sebagai 20/20 Sustainability Plan yang telah memperoleh persetujuan Maybank Group Board pada tahun 2014 dan mulai diimplementasikan di lingkup Maybank Group sejak 2015.

## MAYBANK INDONESIA AND THE SUSTAINABLE DEVELOPMENT GOALS

The Bank indirectly contributes to the achievement of Sustainable Development Goals through loan distribution to businesses with positive impacts on the nation's sustainable development. Direct contributions are made through corporate responsibility programs for the community and the environment whose benefits are aligned with Sustainable Development Goals (SDGs).

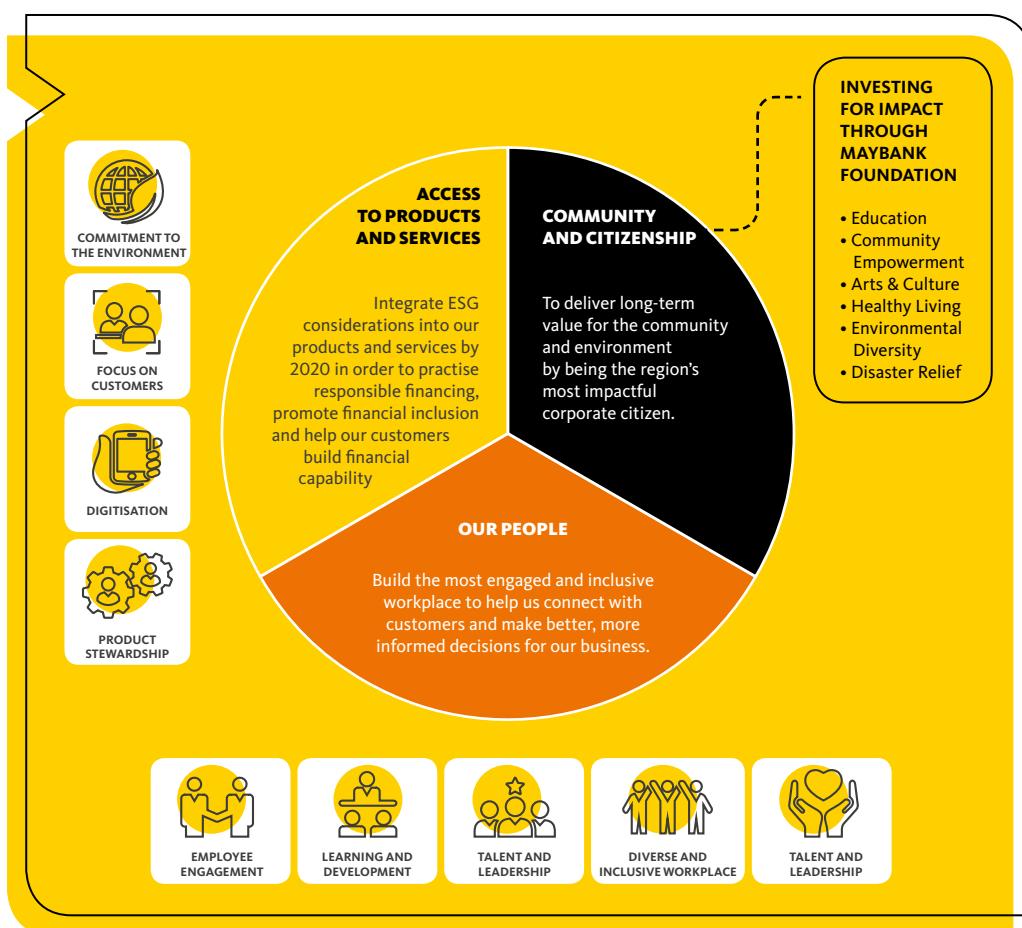

Maybank Indonesia has been supporting the Government's commitment to implement sustainable development through Maybank 20/20 Sustainability Plan under which its overall CR programs are more specifically outlined.

### Business Sustainability Plan

As part of Maybank Group, Maybank Indonesia already has guidelines and strategic directions under the Environmental, Social and Governance (ESG) framework and business Sustainability plan known as the 20/20 Sustainability Plan approved by Maybank Group Board in 2014 and has been implemented across the Group since 2015.

Maybank 20/20 *Sustainability Plan* membantu Bank dalam mengelola ekspektasi pemangku kepentingan. Melalui rencana keberlanjutan usaha, Bank berupaya menciptakan manfaat dan nilai jangka panjang yang signifikan baik secara lokal maupun regional melalui program *Corporate Responsibility* (CR). Program CR yang dilaksanakan Bank bukan lagi bersifat donasi atau filantropi, namun telah bertransformasi menjadi bagian yang terintegrasi dengan keberlanjutan usaha dan LST sebagai bagian utuh bisnis Bank. Komitmen keberlanjutan tersebut tercantum dalam 3 pilar yaitu: *Community and Citizenship*, *Our People*, dan *Access to Products and Services*.

Maybank 20/20 Sustainability Plan helps the Bank to manage stakeholder expectations. Through its business continuity plan, the Bank seeks to create significant long-term benefits and value both locally and in the region through Corporate Responsibility (CR) program. The Bank's CR program no longer emphasizes on donation or philanthropy, but it has been transformed into an integrated part of business sustainability and ESG as an integral part of the Bank's business. Sustainability commitments are listed in 3 pillars, namely: Community and Citizenship, Our People, and Access to Products and Services.

#### Tujuan Pembangunan Berkelanjutan

Bank memainkan peran ganda dalam pencapaian Tujuan Pembangunan Berkelanjutan. Pertama, Bank secara tidak langsung berkontribusi melalui pembiayaan dan pendanaan pada nasabah yang melakukan kegiatan usaha yang dapat memberikan dampak pada pembangunan berkelanjutan. Kedua, melalui kegiatan tanggung jawab korporasi kepada masyarakat dan lingkungan yang manfaatnya selaras dengan SDGs

#### Objective of Sustainable Development

The Bank plays dual roles in achieving the Sustainable Development Goals. Firstly, the Bank makes indirect contribution through financing and funding to customers who run businesses that can have a positive impact on sustainable development. Secondly, the Bank makes a contribution through its corporate responsibility activities that involve the community and the environment which aligned with the SDGs.

**Kegiatan-kegiatan CR Maybank Indonesia memiliki tujuan yang jelas, yaitu untuk membuat perubahan sosial dan ekonomi, berkontribusi pada pencapaian SDGs, bersifat jangka panjang serta melibatkan komunitas dan Maybankers sebagai volunteer.**

Maybank Indonesia's CR activities have clear objectives, namely to make social & economic impacts, contribute to the achievement of SDGs, have a long term nature, and involve the communities and Maybankers as volunteers.

## Pemangku kepentingan yang terhormat,

Mewakili jajaran Direksi, kami menyampaikan pencapaian Maybank Indonesia dalam melaksanakan strategi keberlanjutan untuk memberikan manfaat kepada seluruh pemangku kepentingan, termasuk yang berkaitan dengan pencapaian non-finansial Bank di bidang sosial dan lingkungan.

Tahun 2019, sebagaimana kita ketahui merupakan tahun yang menantang bagi kegiatan usaha di Indonesia bahkan hampir di seluruh dunia. Indonesia mencatatkan pertumbuhan ekonomi sebesar 5,02% yang merupakan angka pertumbuhan yang stabil selama 5 tahun terakhir. Perekonomian masih tetap tumbuh di tengah-tengah dinamika perang dagang dan geopolitik, penurunan harga komoditi, serta perlambatan ekonomi di banyak negara termasuk mitra dagang Indonesia.

Pertumbuhan ekonomi Indonesia terutama ditopang dari Konsumsi Rumah Tangga dan PMTB (Pembentukan Modal Tetap Bruto) yang masing-masing menyumbang 55,76% dan 32,28%. Namun demikian Konsumsi Rumah Tangga hanya tumbuh 5,04% dibandingkan 5,06% pada 2018, sedangkan pertumbuhan sektor industri mencapai 3,8% dibandingkan 4,27% di tahun sebelumnya dan kedua sektor tersebut merupakan pangsa pasar perbankan.

Otoritas Jasa Keuangan atau OJK mencatat pertumbuhan kredit perbankan 2019 sebesar 6,08%, angka ini lebih rendah daripada pertumbuhan kredit 2018 sebesar 11,8%. Bank BUMN mencatatkan pertumbuhan kredit 8,5%, lebih rendah dibanding 2018 sebesar 14,1% sedangkan pertumbuhan kredit bank umum swasta nasional tumbuh 4,3 persen, turun dibandingkan tahun 2018 9,4%.

Maybank Indonesia telah melakukan langkah-langkah proaktif untuk melakukan upaya berkelanjutan dalam meningkatkan imbal hasil kredit, pendapatan non-bunga, mengurangi biaya dana, serta mengendalikan biaya operasional. Strategi ini diimbangi dengan upaya menjaga postur risiko untuk menjaga kualitas aset.

Sebagai hasilnya, pada tahun 2019 Bank mampu menyalurkan kredit sebesar Rp129,8 triliun, dan membukukan peningkatan pendapatan operasional sebelum provisi sebesar 2,0% menjadi Rp3,1 triliun. Kualitas aset seperti tercermin pada penurunan tingkat NPL dari 2,7% (gross) dan 1,5% (net) menjadi 2,6% (gross) dan 1,5% (net), CAR sebesar 20,1% dan Rasio Loan to Deposit (LDR-Bank saja) berada pada level yang sehat sebesar 96,3%.

## Dear stakeholders,

On behalf of the Board of Directors, we would like to report on the achievement of Maybank Indonesia in implementing the sustainability strategy to give benefits to all stakeholders, including non-financial achievements in social and environmental fronts.

As we all may have known, 2019 was a very challenging year not only for businesses in Indonesia but also for countries around the world. Indonesia registered an economic growth of 5.02%, continuing a stable trend over the past 5 years. This was achieved amidst an on-going trade dispute, geopolitical issues, falling prices of key commodities, and a slowing economic growth of Indonesia's trading partners.

Indonesia's economic growth was mainly supported by Household Consumption and Gross Fixed Capital Formation, which during the year contributed 55.76% and 32.28% respectively. Household Consumption grew 5.04% compared with 5.06% in 2018 and, notably, the growth of the industrial sector reached 3.8% compared with 4.27% in the previous year. These two sectors are key market segments for the banking sector.

The Financial Services Authority (OJK) recorded a 6.08% growth in industry-wide financing, lower than the 11.8% in 2018. State-owned banks recorded an average 8.5%, lower than 14.1% in 2018 and national private commercial banks also experienced a decline with an average of 4.3%, compared to 9.4% in 2018.

Maybank Indonesia has taken proactive steps to remain consistent in improving credit yields, earning higher non-interest income, reducing cost of funds, and containing operational costs. This strategy is balanced with a calculated effort to maintain risk posture and maintain asset quality.

As a result, in 2019 the Bank recorded total loans of Rp129.8 trillion, and 2.0% increase in operating income before provisions to Rp3.1 trillion. Asset quality was reflected in a decline in NPL level from 2.7% (gross) and 1.5% (net) to 2.6% (gross) and 1.5% (net), a CAR of 20.1% and a healthy Loan to Deposit Ratio (Bank only) of 96.3%.

### NILAI KEBERLANJUTAN BAGI MAYBANK INDONESIA

Bank Maybank Indonesia, mewujudkan nilai keberlanjutan melalui penyaluran pembiayaan untuk kegiatan pembangunan serta berperan langsung dalam pembangunan masyarakat dalam rangka mencapai Tujuan Pembangunan Berkelanjutan dan upaya mengatasi perubahan iklim. Maybank Indonesia melakukan dua pendekatan utama untuk menjawab tantangan ini, yaitu dengan menerapkan keuangan berkelanjutan dan merancang program Corporate Responsibility secara keberlanjutan guna memampukan kelompok masyarakat rentan untuk meraih kemandirian ekonomi.

### KOMITMEN PIMPINAN PERUSAHAAN DALAM PENCAPAIAN KEUANGAN BERKELANJUTAN

Maybank Indonesia berkomitmen untuk ikut serta membangun Industri Jasa Keuangan yang mendukung pencapaian Tujuan Pembangunan Berkelanjutan (*Sustainable Development Goals* atau *SDGs*) dengan menerapkan aturan Keuangan Berkelanjutan yang ditetapkan oleh OJK. Kami menerapkan keuangan berkelanjutan dalam menyediakan pendanaan untuk memberikan manfaat bagi pemangku kepentingan, serta menerapkan dan mengelola manajemen risiko untuk meminimalkan dampak lingkungan dan sosial yang merugikan dari kegiatan usaha yang kami biayai.

### KEBIJAKAN UNTUK MERESPON PENERAPAN KEUANGAN BERKELANJUTAN

Maybank Indonesia telah menyusun, menerapkan, dan mengkaji ulang Rencana Aksi Keuangan Berkelanjutan (RAKB) yang memuat strategi jangka panjang Bank untuk menerapkan keuangan berkelanjutan 2018-2022. Strategi tersebut memuat tiga arahan utama yaitu peningkatan kapasitas internal, integrasi aspek lingkungan, sosial, dan tata kelola, serta pengembangan portofolio.

### PENERAPAN KEUANGAN BERKELANJUTAN

Fokus kami dalam pelaksanaan keuangan berkelanjutan pada tahun 2019 adalah pengembangan kapasitas internal tentang prinsip dan implementasi keuangan berkelanjutan itu sendiri. Kami menyelenggarakan training keuangan berkelanjutan untuk anggota Direksi dan Dewan Komisaris hingga Senior Management serta sosialisasi keuangan berkelanjutan melalui e-learning kepada seluruh Maybankers. Terdapat 5 workshop yang kami selenggarakan dengan narasumber dari dalam negeri (termasuk Otoritas Jasa Keuangan) dan luar negeri.

### VALUE OF SUSTAINABILITY FOR MAYBANK INDONESIA

Maybank Indonesia is realizing its sustainability values by providing financing for nation building activities, and it plays a direct role in the community development as our effort to achieve the Sustainable Development Goals and help to manage climate change. Maybank Indonesia adopts two main approaches to respond this challenge, by first implementing sustainable finance and second by designing a sustainable Corporate Responsibility program to empower vulnerable communities so they can move towards economic self-reliance.

### COMMITMENT OF COMPANY LEADERS IN ACHIEVING SUSTAINABLE FINANCE

Maybank Indonesia is committed to participate in developing the Financial Services Industry that advocates the achievement of the Sustainable Development Goals (SDGs) through compliance with Sustainable Finance regulations enacted by OJK. We are applying sustainable finance in distributing the financing that give benefits to stakeholders, and running proper risk management to mitigate the otherwise adverse social and environmental impacts from the many businesses that we are financing.

### RESPONSIVE POLICIES ON THE ADOPTION OF SUSTAINABLE FINANCE

Maybank Indonesia has prepared, applied, and reviewed its 2018-2019 Sustainable Financial Action Plan, outlining a long-term strategy to implement sustainable finance. This strategy gives three directions; internal capacity building, the integration of environmental, social and governance (ESG) aspects, and portfolio development.

### IMPLEMENTATION OF SUSTAINABLE FINANCE

Our focus in applying sustainable finance in 2019 was on developing internal capacity of the principles and implementation of sustainable finance. We organized training on sustainable finance for members of the Board of Directors, members of the Board of Commissioners, and Senior Management. We also socialized the training materials to all Maybankers through e-learning. We held 5 workshops during the year, given by speakers from within the country, including OJK, and from overseas.

Dalam pengelolaan aspek lingkungan, sosial, dan tata kelola (LST), Maybank Indonesia telah mulai mengintegrasikan LST ke dalam proses penyaluran produk kredit. Sejalan dengan kebijakan Maybank Group, kami telah menetapkan Kebijakan LST dan *Risk Management Framework* Maybank Indonesia yang mengatur kegiatan usaha yang tidak dibiayai (*blacklist activities*) dan jenis-jenis kegiatan usaha yang perlu pengelolaan khusus (*designated loan*) yaitu kegiatan pembiayaan yang pada saat ini memiliki risiko LST tinggi.

#### PENCAPOAIAN KINERJA KEUANGAN BERKELANJUTAN

Bank telah menyalurkan kredit yang dikategorikan dalam Kegiatan Usaha Berkelanjutan (KUB) yaitu perkebunan Lestari (RSPO/ISPO) sebesar Rp2,96 triliun, kredit untuk UMKM sebesar Rp27,4 triliun, pembiayaan infrastruktur dan kegiatan-kegiatan lainnya, sehingga total portofolio kredit untuk KUB seluruhnya mencapai Rp44,88 triliun atau 39% dari total kredit yang disalurkan Bank.

Pelaksanaan keuangan berkelanjutan juga didukung dengan program Corporate Responsibility (CR) yang bertujuan memberikan nilai tambah kehadiran kami di tengah-tengah masyarakat. Program CR juga mendorong pembangunan yang inklusif dengan melibatkan masyarakat disabilitas dalam program R.I.S.E. (Reach Independence & Sustainable Entrepreneurship) dan pemberdayaan perempuan prasejahtera melalui penyaluran kredit mikro dan kegiatan tenun ramah lingkungan dalam kegiatan Maybank Women Eco-Weavers.

Kegiatan-kegiatan CR Maybank Indonesia memiliki tujuan yang jelas, yaitu untuk membuat perubahan sosial dan ekonomi, berkontribusi pada pencapaian SDGs, bersifat jangka panjang serta melibatkan komunitas dan Maybankers sebagai *volunteer*. Untuk mendukung kegiatan CR, Bank melakukan investasi sosial sebesar Rp1,7 miliar dan RM2,7 juta (Rp9,3 miliar).

#### PEMANFAATAN PELUANG DAN PROSPEK USAHA

Sebagai salah satu zona ekonomi penting di kawasan, Indonesia memiliki potensi untuk terus tumbuh berkat sumber daya alam dan demografi yang dimilikinya. Namun, belum semua masyarakat dan wilayah terjangkau oleh layanan keuangan formal serta pengetahuan keuangan yang memadai, sehingga pembangunan dan hasil-hasilnya belum dapat dirasakan manfaatnya secara

In environmental, social and governance (ESG) aspects management, Maybank Indonesia has been integrating ESGs into the financing distribution process. In line with Maybank Group policy, we have established an ESG Policy and Maybank Indonesia's Risk Management Framework that governs blacklisted activities and designated loans or financing activities that are currently exposed to high ESG risk.

#### ACHIEVED PERFORMANCE OF SUSTAINABLE FINANCE

The Bank distributed total financing of Rp2.96 trillion to Sustainable Business Activities (SBA), including Lestari plantation (RSPO/ISPO), Rp27.4 trillion to MSME, and another large amount to infrastructure development and other activities. The total financing portfolio for SBA, reached Rp44.88 trillion or 39% of the Bank's total financing in 2019.

The implementation of sustainable finance is also supported by our Corporate Responsibility (CR) program which aims to add value to our presence in the society. The CR program encourages inclusive development by engaging people with disabilities in the Reach Independence & Sustainable Entrepreneurship program and empowering underprivileged women through micro credit distribution and environmentally friendly weavings under Maybank Women Eco-Weavers program.

The CR activities of Maybank Indonesia have a clear objective, which is to make social and economic changes, contribute to the achievement of SDGs, engage the community and Maybankers as volunteers; these are long term in nature. To support this, the Bank made a social investment of Rp1.7 billion and RM2.7 million (Rp9.3 billion).

#### CAPITALIZING ON BUSINESS OPPORTUNITIES AND PROSPECTS

As one of the most important economic zones in the region, Indonesia has the potential to continue the growth of its wealth of natural deposits and demographics. However, not all communities and regions have access to formal financial services and adequate financial knowledge. Thus the results of the nation development have not been evenly felt. This has become both a

Message from the President Director

merata. Hal ini menjadi tantangan dan peluang perbankan untuk menyediakan produk dan layanan keuangan yang dapat menembus batas wilayah dan akses konvensional sehingga lebih banyak masyarakat Indonesia mendapatkan akses dan layanan keuangan yang dibutuhkannya.

Kami menandai peristiwa penting pada 2019, yaitu dengan bergabungnya Maybank Indonesia dalam kegiatan yang diselenggarakan Inisiatif Keuangan Berkelanjutan Indonesia (IKBI) dan meresmikan keanggotaan kami pada 26 September 2019. Kemitraan ini tentunya memiliki makna penting baik bagi Maybank Indonesia maupun bagi IKBI, karena dengan demikian kita akan dapat saling belajar satu sama lain untuk menerapkan keuangan berkelanjutan di masa depan.

Kami mengidentifikasi tantangan dalam pelaksanaan keuangan berkelanjutan, dari internal yaitu pemahaman isu lingkungan, ekonomi dan sosial dalam proses pengambilan keputusan pemberian kredit dan eksternal yang terkait dengan kejelasan regulasi pelaksanaan keuangan berkelanjutan serta kepastian hukum pada kegiatan usaha yang berpotensi meningkatkan risiko finansial bagi Lembaga Keuangan yang memberikan kredit.

### STRATEGI PENCAPAIAN TARGET

Dalam pelaksanaan keuangan berkelanjutan, kami melihat perlunya pembelajaran oleh semua pemangku kepentingan dalam hal pemahaman tentang isu LST, proses integrasi risiko, serta faktor ketidakpastian kondisi sosio-ekonomi dan regulasi yang mempengaruhi pengambilan keputusan dan *risk appetite* Bank.

Ke depan, Maybank Indonesia akan terus menyempurnakan pelaksanaan aspek LST dalam proses bisnis Bank dan menginternalisasikannya kepada seluruh Maybankers dan mendorong penyaluran kredit untuk Kegiatan Usaha Berkelanjutan yang lebih berdampak bagi pembangunan berkelanjutan.

challenge and opportunity for the banking industry to provide beyond-boundaries and beyond-conventional financial products and services to provide more Indonesia with banking access and financial services.

We marked 2019 with a key milestone as Maybank Indonesia joined the Indonesian Sustainable Financial Initiative and inaugurated our membership on September 26, 2019. This partnership is meaningful not only for Maybank Indonesia but also for IKBI since it allows us to learn from each other about how to better implement sustainable finance in the future.

We identified challenges emerging in the process of sustainable finance. The internal challenge is how to comprehend environmental, economic and social issues during a financing decision-making process. One of the external challenges was the clarity of regulations on sustainable finance while another one on legal certainty in business activities that may increase financial risks for lending Financial Institutions.

### TARGET ACHIEVEMENT STRATEGY

As we are implementing sustainable finance, we see the need for all stakeholders to understand ESG issues, risk integration process, and the uncertainty of socio-economic and regulatory conditions that may affect the decision-making process and risk appetite of the Bank.

Going forward, Maybank Indonesia will continue to refine the way it is implementing ESG in the Bank's business process, internalizing these aspects to all Maybankers, and encouraging financing for Sustainable Business Activities that provide greater positive impacts on sustainable development.

About Us

Bersama ini, kami ingin menyampaikan apresiasi kepada Dewan Komisaris yang telah mendukung Direksi melalui saran dan pengawasan, seluruh Maybankers atas kinerja dan kontribusinya, kepercayaan nasabah atas integritas kami serta para pemegang saham yang terus mendukung upaya kami untuk melaksanakan praktik-praktik keuangan berkelanjutan sejalan dengan misi 'Humanising Financial Services'.

In closing, we would like to express our appreciation to the Board of Commissioners for their supervision and inputs, to all Maybankers for their contribution and excellent results, to the customers for their trust in our integrity, and to the shareholders for their endless support for our sustainable finance practices in line with the Bank's 'Humanizing Financial Services' mission.

## Manajemen Risiko LST

### ESG Risk Management

Komitmen Maybank Indonesia terhadap perbankan yang berkelanjutan mengacu pada prinsip-prinsip sebagai berikut:

- a. Mengintegrasikan pertimbangan LST ke dalam aktivitas pembiayaan untuk mengelola risiko LST secara efektif dan mewujudkan peluang LST.

Pada September 2019, Bank menerbitkan Kebijakan LST dan Risk Management Framework Maybank Indonesia, kebijakan ini telah disosialisasikan kepada unit kerja terkait melalui *email* dan portal internal. Terbitnya kebijakan ini diikuti oleh penerapan kebijakan High LST Risk Sector Risk Assesment Committees (RAC), yang berisikan kriteria faktor risiko yang disetujui dan dapat diterima sebagai saringan awal proses pemberian kredit pada industri yang memiliki risiko LST tinggi. Bank akan memperbarui RAC secara reguler terutama untuk industri yang memiliki risiko LST tinggi.

Sebagai bagian dari kerangka kerja ini, Maybank tidak akan membiayai kegiatan yang dianggap tidak sejalan dengan nilai-nilai pokok (*core value*) Maybank Group serta praktik terbaik internasional, termasuk, tetapi tidak terbatas pada:

- c. Strive continuously for opportunities to minimize the impact of LSTs on Maybank Indonesia's operations, products and services.
- d. Exclude debtors/prospective debtors whose business activities are in accordance with the Activities Blacklist.

In September 2019, the Bank issued Maybank Indonesia's ESG Policy and Risk Management Framework, this policy was disseminated to related work units via e-mail and internal portals. #### Indirect Impact of the Program

The beneficiaries received many positive benefits from the access to finance they have, amongs other the community can drink bottled water now that is healthier than water from their private and shared wells (since the quality of ground water does not really meet health aspects), as more members of the communities already have septic tanks and as expectation for higher children's education level has increased.
